

# PIR Motion Sensor Switch

PIR Motion Sensor Switch 12V-24V 8A

ITEM NO: PIRSwitch

PRICE: 29.95

## Automatically detect motion!

Illumine LEDs' PIR motion sensor switch automatically powers on when human motion is detected. This sensitive passive infrared motion sensor lights up our LED lights the moment it detects a thermal difference from 15 feet.

### How To Use:

1. Connect the load wire followed by the power cord.
2. The light turns on when the sensor detects a person's presence in the room.
3. The light turns off 10 seconds after someone left the room.

### Main Specifications:

Static power consumption:	Less than 1w	Supply Voltage	DC 5V,6V,12V,24V (optional)
Output Current	Less than 8A	Output	1 channel
Output Power	5V 40W, 6V 48W, 12V 96W, 24V 192W	Sensing Distance	5 to 8 m
Material	Plastic	Size	8.8 x 6 x 3.5cm(L* W* H)
Working temperature	Minus 20 to 60 deg C	Weight	77g
